**Douro W**

**Diffuser**

**High-End**

**Description**

Douro Diffuser is a product designed to provide maximum uniformity to the ambient sound field through high frequency diffusion while the solid wood construction of the unit limits the amount of sound energy that is lost to absorption. The Wave shaped pattern that resembles a tile, guarantees a good diffusion spread. The scattering begins at 400 Hz and offers effective and even diffusion up to 8000 Hz. The premium material used in the manufacturing of this product comes available in 6 colours, matching your preferences and the patterns of your room. Douro can be used on the front, back, or side walls.

**Technical Information**

![Wood finish](image)

**Finishing Material: Wood**

**Dimensions:** 595 x 595 x 81 (mm)

**Veneered weight:** 2.00 Kg*

**Lacquered weight:** 2.10 Kg*

**Installation:** Mechanical

**HS-Code:** available soon

**Performance**

![Scattering Coefficient](image)

**Veneered wood finish:**

- W01
- W02
- W03

**Lacquered wood finish:**

- L01
- L02
- L03

**Packaging**

**Dimensions:** 620 x 385 x 620 (mm)

**Veneered weight:** 14.70 Kg*

**Lacquered weight:** 15.30 Kg*

6 Units per box
