Description

When we think about acoustic treatment we usually focus on the midrange and upper frequencies. However, a proper acoustic treatment also involves low frequencies, especially when you consider smaller rooms. The main sources of acoustical problems in home cinemas or living rooms are the sound of bass instruments with a lot of echo that inevitably bounce throughout the room, or movie dialog that is difficult to understand at low volumes. With Komodo W bass trap HP you get a premium High Performance acoustic treatment able to correct low end frequencies and forms various artistic patterns when mounted.

Specifications

Acoustic performance:
- Absorption range
- Tuned Frequency:

**FG**
- Dim.: 595x595x129mm
- Weight: 6.45 Kg
- Units per box: 2
- Box Weight: 15.05 Kg

Installation - Mechanical

Packing Dimensions - 640x385x640mm

*Approximate weight

Product finishes:

- Blanc
- Cerise
- Marron
- Noir
- Rouge
- Wenge
